- PostgreSQL
- SQLite
- NextAuth.js

Tools & Other

- Git
- GitHub
- Vercel
- AI Integration
- Framer Motion

FEATURED PROJECTS

Best Work

Real-world projects that demonstrate my skills in full stack development and AI integration.

NexusAI

AI-Powered Chat Application

A production-ready AI chat application with ChatGPT-style UX, guest mode, dark theme, and full authentication. Features real-time AI responses with markdown rendering, syntax-highlighted code blocks, and conversation history management.

- ✓ Real-time AI responses
- ✓ Guest mode + Auth
- ✓ Markdown & code blocks
- ✓ Conversation history
- ✓ Dark/Light theme
- ✓ Fully responsive

`Next.js 16` `React 19` `TypeScript` `Prisma` `NextAuth` `Tailwind CSS 4`

Bank Management System

Desktop Banking Application

A fully functional desktop banking system with account management, transactions, analytics, and local database integration. Built as a complete full-stack desktop application with packaged executable for easy deployment.

- ✓ Account management
- ✓ Deposit & withdraw
- ✓ Transaction history
- ✓ Analytics dashboard

✓ Local SQLite DB ✓ Packaged .exe

Java HTML/CSS SQLite

SERVICES

What I Offer

Professional web development services tailored to your business needs and goals.

01

Landing Pages

High-converting single page websites designed to capture leads and make a strong first impression for your product or service.

02

Portfolio Websites

Clean, modern portfolio sites with smooth animations and responsive design that showcase your work and skills professionally.

03

Business Websites

Multi-page corporate websites with navigation, contact forms, SEO optimization, and content management for growing businesses.

04

SaaS Frontends

Modern application frontends with dashboard UI, authentication, dynamic content, and API integration for software products.

05

Custom Web Applications

Bespoke web solutions tailored to your unique requirements with full-stack development, database design, and deployment support.

06

AI Integration

Add AI-powered features like chatbots, content generation, and smart search to your existing or new web applications.

Let's Build Something Amazing Together

Have a project in mind? I'd love to hear about it. Reach out to me on Fiverr or send an email, and let's turn your idea into reality.
